DETAILED ACTION

Allowable Subject Matter

Claims 1-30 allowed.

The following is an examiner's statement of reasons for allowance:

With respect to Claims 1, 15 and 23 the prior art does not disclose or suggest, in combination with the limitations of the base claim and any intervening claims, primarily, wherein a transient response property of the voltage converter with respect to the designated voltage in feedback control is consistent with a reference transient response property of the voltage converter when the voltage level of the direct current voltage is equal to a reference voltage at a first time.

The aforementioned limitations in combination with all remaining limitations of the respective claims are believed to render the aforementioned indicated claim and any dependent claims thereof patentable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
